Well villagers there has been a definite chill in the air! Unfortunately our last newsletter was sent out rather late in the month as it was so icy under foot, huge apologies for the delay.

Although we are still operating differently here at the hub, behind the scenes we are getting prepared to open our doors for those who would like to access the Talk Community Hub. The hub is a place that brings people together, builds friendships and helps to further strengthen our local community. As well as connecting with others, at the hub you will be able to access information and find available services, groups and activities to support your wellbeing and independence.

For anyone who hasn't got access to the internet or requires a printer, we have laptops and a printer available. Our newly refurbished back rooms can be hired for office space/meetings etc. Please see overleaf for printing prices.

Thank you to everyone who has supported Fishy Friday! It is going from strength to strength and we have had some wonderful reviews. It is essential to pre-order your fish & chips so you can be allocated a pick up time - 01568 770584

Like us on

Our covid response remains the same, offering support where required within our community. We would like to remind everyone that our team of volunteers will collect prescriptions and offer delivery for much needed supplies. Are you shielding, vulnerable or isolated? As part of our "covid response", we are offering homecooked meals delivered by one of our volunteers. If you would like to find out more please get in touch.

Getting involved in you local community is great for your mental health and wellbeing, especially in such trying times.

VOLUNTEERS NEEDED!

Do you have time to spare to help the community? Volunteers can either help in person at the talk hub when restrictions are lifted or café, help with delivering, collecting prescriptions, drop off precooked meals to those who are vulnerable and help with the distribution of our newsletter. Call us on 01568 770144.
